INFORMATION DISCLOSURE STATEMENT

This is an Information Disclosure Statement filed in accordance with 37 CFR 1.98.

Attached is a Form PTO/SB/08 identifying each of the eight (8) references cited in the International Search Report issued by the European Patent Office in connection with the above-identified International Application. It is noted that WO 01/48284 is cited and discussed in the paragraph beginning on line 24, page 1 of the present application and is a counterpart of U.S. Patent No. 6,789,580, which is likewise identified in the attached Form PTO/SB/08.

No copy of any of the identified references is enclosed since copies are presumed to already be in the file due to having been forwarded by the European Patent Office as a result of an existing treaty, and/or to be U.S. patent references for which no copies are required. However, if no such copies of the foreign references are in the file and/or copies of these references are desired, please request copies of the desired references from undersigned counsel and they will be supplied.

The attached Form PTO/SB/08 also identifies two (2) further references that are cited and discussed on page 2 in the present application. Note that cited U.S. Patent 3,895,655 is the U.S. counterpart of cited Swiss patent CH 588 582 (copy enclosed).

Since all requirements for the filing of Information Disclosure Statements have been complied with, it is requested that the Examiner consider all of the identified references and indicate such consideration by enclosing a properly initialed copy of the enclosed Form PTO/SB/08 with the initial Office Action.

Respectfully submitted,
